

As we prepare for the new school year, making a choice for your child's education is not easy. Having a gifted child might raise additional questions about the best educational fit for your child and your family. This information is meant to provide some guidance in making your choice. Gilbert Public Schools is committed to providing quality gifted services regardless of the educational option you choose. Please feel free to contact me if you have any questions.

Rowe Van Meter, Coordinator of Gifted Education

480-545-2173 (ex. 802173), rowe.vanmeter@gilbertschools.net

The district gifted delivery model provides K-3 gifted cluster classrooms, accelerated math in 4-6 grades and ELA instruction and enrichment in 6th grade. Additional information specific to 20-21 delivery models is below:

Gifted students will be in Gifted Cluster Classrooms in grades K-6. Gifted services will continue with accelerated 4th-6th grade math and 6th grade ELA instruction/enrichment with their campus gifted teacher. Gifted students in grades other than 4th-6th may receive additional services depending on their school's gifted model.

Gifted services will continue with accelerated 4-6th grade math and 6th grade ELA instruction/enrichment. Students could receive math instruction from an advanced grade classroom teacher and a gifted cluster teacher. Depending on the campus, flex students more than likely would not participate in the campus pullout program for the two days they attend in person.

Gifted services will continue with accelerated 4th-6th grade math and 6th grade ELA in an online classroom format with the support of an online gifted teacher.

Students in Towne Meadows and Highland Jr. High self-contained programs will be assigned to a math class that is appropriate.

Thank you for your interest in Gilbert Public Schools!
