

## Health Assessment Protocol for Students

In partnership with parents and guardians to keep our students healthy, we need you to screen your child on a daily basis before you send them to school.

**If your child has any of these symptoms, keep them home from school and notify your campus of their absence and symptoms.**

**If the answer to all of the following questions is “no,” then we feel confident that your child will be more likely to have a successful day at school!**

- Does your child currently have a fever (temperature above 100.4) or had a fever in the last 24 hours?
  
- Does your child have:
  - A new cough or shortness of breath
  - Headache
  - Body Aches
  - Loss of sense of taste or smell
  - Chills
  - Sore throat
  - Diarrhea
  - Vomiting
  
- Is anyone in your home currently being isolated for COVID-19 due to a positive test or COVID-19 symptoms?
  
- Have you been in close contact (closer than 6 feet for more than 10 minutes without a mask) with someone who has been diagnosed with COVID-19 or has symptoms compatible with COVID-19 in the last two days?
