The Experience

- ▶ **Challenging coursework**
 - Upper level and college equivalent work

- ▶ **Increased workload**
 - Work ethic is as important as intelligence
 - It's normal for students to struggle initially
 - Students will work harder to earn an A or B

Dual Enrollment

How does dual enrollment work?

Dual Enrollment is an opportunity for eligible high school students to earn lower-division college credit during their regular high school classes. The credits students earn through Dual Enrollment are treated the same as regular college credit (i.e. they can be transferred to other Maricopa Community Colleges, Arizona's state universities, and even some out-of-state colleges). Students will be establishing a college academic record and will be required to report such enrollment to future colleges or universities

To earn college credit, students must pass a dual enrollment class with a **C or better. The grade earned will be part of the student's college academic record.**

Unlike AP classes, students do not have to pass an exam to earn college credit. College admissions counselors may consider dual credit grades during the admissions process.

Credit and placement

Will my college accept dual credit?

In state public colleges are more likely to accept dual credit than out of state public colleges or private universities. Students should research their options and check with the institution they are planning on attending.

The student is responsible for contacting CGCC to have official transcripts sent to other institutions. There is a \$5 copy fee for each transcript. The high school will not be able to provide this documentation. Students and parents should do their own research and due diligence when considering colleges.

FAST FACTS:

- Tuition is \$85/credit hour (average class is 3-5 credits) + \$20 enrollment fee each semester
- Classes can be one semester or full year
- Students are creating a Maricopa Community college transcript by taking dual enrollment courses
- Students dropped from a class due to non-payment of tuition or miss the drop deadline will be assigned a “W” on their college transcript
- Students under 18 must have parental consent
- Dual enrollment classes are college classes with higher academic expectations

AP vs. Dual Enrollment

	Dual Enrollment	Advanced Placement
Description	Dual Credit allows high school students to potentially earn both high school and college credit by completing courses at their high school.	The AP Program allows students to take college-level courses and exams, and to potentially earn college credit or placement while still in high school.
Transferability	All in-state and several other public institutions; may not be accepted by selective out of state universities.	Accepted by most institutions, public and private, both in and out-of-state. Very few exceptions.
How Transferred	Through a CGCC transcript.	As a score (1 through 5) with 5 and 4 being most readily accepted, 3 may be accepted and 2 and 1 are not accepted.
How Grade or Score is Assigned	Dual Credit grade is the same grade as high school grade.	Student will receive a high school grade, but transferability is based on a single, national exam administered in May. Class grade has nothing to do with test score.
Cost	\$85/credit hour plus a \$15 registration fee per semester.	\$98.00 per exam

The Payoff!

▶ Saves Time and Money

◦ Earn college credit while still in high school

- Skip Introductory Classes: If you already know your preferred college major, taking a related AP course (and earning a qualifying score) or completing a Dual Enrollment (with C or higher) can help you advance and avoid required introductory courses – so you can move directly into upper-level classes and focus on the work that interests you most.

◦ Increase Scholarship Opportunities

- Specific scholarships for Honors and AP students
- 31% of colleges and universities consider a student's AP experience when making decisions about which students will receive scholarships. -Wells International School
- Having the AP Exam score can make the difference when it comes down to awarding precious scholarship dollars —Edwina Harris Hamby, former Dean of Admission, Fisk University
