\*This information will be posted here by Friday, April 3, 2020.

\*\*It will not be possible to provide subscores this year.

## Instructional Support

Beginning on Wednesday, March 25, students and teachers can attend free, live AP review courses, delivered by AP teachers from across the country. These mobile-friendly classes are:

- Designed to be used alongside work that may be given by schools.
- Will be recorded and available on-demand so teachers and students can access them any time.
- Not dependent on current AP teachers continuing instruction. We know many AP teachers now face challenges that would make that impossible.
- Will focus on reviewing the skills and concepts from the first 75% of the course. There will also be some supplementary lessons including topics from the final 25% of the course.

Teachers who are providing remote instruction can continue to leverage AP Classroom, which we introduced at the start of the school year.

- Within AP Classroom, free-response questions that were only available for in-classroom use due to security concerns will now be unlocked.
- Teachers will be able to assign questions to students digitally
