These definitions may be helpful in our conversation (adapted from prodigygame.com):

Vision - A vision is “what you hope the future will be”; it’s a statement that identifies the school’s ideal.

Mission - School mission statements are a “tool for guiding and shaping the learning process” that help us achieve the vision. These statements define and drive daily decisions, growth, and learning.

Next Meeting: Monday, November 30 @6:00

- Location -- HJHS Library
